REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach : Regarding Claim 1, a mounting apparatus for mounting a hollow work-piece on a machine, the mounting apparatus comprising:
a dampening plug assembly for positioning inside the hollow workpiece adjacent the cylindrical supporting fixture; and an end pressure reducing device for mounting within the circumferential groove underneath the end of the hollow workpiece for centrifugally supporting and enabling the reduction of machining-induced pressure from the end of the hollow workpiece; and Regarding Claim 16, a first foam rubber member for positioning inside the hollow workpiece adjacent said cylindrical supporting fixture, said first foam rubber member having a first density and a first durometer within a first range of durometer values, and a second foam rubber member for mounting within the circumferential groove underneath the end of the hollow workpiece for centrifugally supporting and enabling the reduction of machining-induced pressure from the end of the hollow workpiece, the second foam rubber member having a second density different from the first density, and a second durometer within a second range of durometer values that is greater than said first range in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
